

Public Library of Prespes

In the area of Prespes young people use the Tipping Point programme in a unique way. Junior High school (2nd + 3rd grade) and High school (1st grade) students learn about Oceanography, the everyday life of a Researcher, Theater and Robotics by “meeting” mentors, not in their classrooms but in the Public Library of Prespes.

Every Saturday night, students gather, in order to participate in sessions which have been planned by them. At the end of each session they discuss and schedule the next one and set the questions of the agenda for next week.

The project was implemented with the support of the [Society for the Protection of Prespa \(SPP\)](#).
