Eco-Literacy: The world in your classroom!

Mushroom pickers, Environmentalists, Plant Biologists, Ornithologists, Researchers, etc. shared their knowledge and experience, offered their advice, and answered the students' questions during scheduled live sessions.

The aim of the project was to give young students a stimulus for discovering the natural wealth and the business opportunities of their hometown. To dream their own future as adult professionals without having to leave their birthplace.

"The world in your classroom" project was implemented within the framework of the educational program "Eco-Literacy" by The Tipping Point, in collaboration with the Non-Profit Organizations [Agoni Grammi](#), [Gonimi](#) and New Wrinkle ([Café de Jour](#)).
