

## **“Business Center for Digital Education - Let’s Get Digital HUB”**

The new conditions that emerged in the education sector due to COVID - 19 highlighted, more than ever, the use of digital tools in the educational process.

On this occasion and also given that the future in education is hybrid and there is no magic solution or one that applies to all, The Tipping Point implements the project “Business Center for Digital Education - Let’s Get Digital HUB”. The aim is to enhance the effort that develops Remote Teaching to Digital Learning (Online Learning), as well as to support educators, and consequently their students, to succeed in their schools’ digital transition.

## LET'S GET DIGITAL HUB

### Methodology

Through “Business Center for Digital Education - Let’s Get Digital HUB”, inquiry learning approach via discovery and questioning can offer what suits best every educator, student and classroom. Specifically, educators from schools all over Greece have the opportunity to:

1. Ask questions regarding distance education, which are answered by experts or educators from different schools.
2. Share best practices that worked successfully in their classroom.
3. Participate in Live Sessions with educators across Greece approaching a variety of educational topics.
4. Receive answers to questions regarding technological content knowledge from educators inside their schools.

The project is implemented with the support of **Youth Empowered of Coca-Cola 3E**.
